axl **everfly**

axl everfly 8000mAh 3S LiPo battery is engineered to deliver uncompromising performance for drones, RC vehicles, robotics, etc. With a perfect balance of energy density, durability, and light-weight construction, it ensures maximum runtime, consistent power delivery, and exceptional reli-ability under demanding conditions.

Key Features

Lightweight Design	Designed for applications where every gram counts, delivering more power with less weight.
High Power Density	Advanced LiPo technology offers an outstanding energy-to-weight ratio for superior efficiency.
Compact Yet Capable	Space-efficient form factor for seamless integration into compact power systems.
Reliable & Secure Connections	Equipped with XT60H main and JST-XH balance connectors for safe, low-resistance energy transfer.
Built for Endurance	Premium-grade cells ensure durability, cycle after cycle, without compromising performance.

Technical Specifications

Specifications	Details
Capacity	8,000 mAh
Voltage	11.1V (3S)
Discharge Rate	20C
Configuration	3S1P
Connector Type	XT60H and JST-XH
Dimensions (L×W×H)	130mm x 42mm x 31mm
Weight	400 g

About axldrone

axldrone is a leader in innovative drone solutions, offering purpose-built drones, powerful components, and ground control software. With over a decade of R&D and global project execution experience, we provide end-to-end drone solutions for professional and industrial uses.
