axldrone
your world from above

Endurance-focused. Performance-ready.

axl **everfly**

axl everfly 35000mAh 12S LiPo battery is engineered to deliver uncompromising performance for high-performance industrial drones, VTOL aircrafts, RC vehicles, and Robotics. With a perfect balance of energy density, durability, and lightweight construction, it ensures maximum runtime, consistent power delivery, and exceptional reliability under demanding conditions.

Key Features

Lightweight Design	Designed for applications where every gram counts, delivering more power with less weight.
High Power Density	Advanced LiPo technology offers an outstanding energy-to-weight ratio for superior efficiency.
Compact Yet Capable	Space-efficient form factor for seamless integration into compact power systems.
Reliable & Secure Connections	Equipped with AS150 main and JST-XH balance connectors for safe, low-resistance energy transfer.
Built for Endurance	Premium-grade cells ensure durability, cycle after cycle, without compromising performance.

Technical Specifications

Specifications	Details
Capacity	35000 mAh
Voltage	44.4 V (12S)
Discharge Rate	5C
Configuration	12S1P
Connector Type	AS150 and JST-XH
Dimensions (L×W×H)	190mm x 87mm x 132mm
Weight	5Kg

About axldrone

axldrone is a leader in innovative drone solutions, offering purpose-built drones, powerful components, and ground control software. With over a decade of R&D and global project execution experience, we provide end-to-end drone solutions for professional and industrial uses.
